

COMPUTER AIDED DRAWING - BASIC

Training Dates:
Friday-Saturday
September 10-11, 2010
And/or
February 25-26, 2011
Hours 16

Time:
8:00 a.m. – 4:30 p.m.

Cost:
\$225.00

Location:
Fox Valley Technical College
Criminal Justice Division

Training Objectives:

This course focuses on the diagramming of crash and crime scene using Cad Zone diagramming software. Presented by personnel certified as Master Trainers by Cad Zone, introductory techniques for using both the Crash Zone and the Crime Zone software packages will be shown. Beginning with basic computer drawing applications, students will complete the course with the knowledge to produce accurate, visually appealing, and professional scaled scene drawings. This course will prepare the student for advanced classes in this series, including 3D applications and animation. Two instructors will present the course, allowing for individualized attention.

Software Purchase:

Your agency can purchase the Crash Zone or Crime Zone software packages for a cost of **\$599.00** in addition to the course tuition. This is a special \$100.00 discount for students that have attended a certified training class. Upgrade pricing from previous versions is also available.

Prerequisite:

Some computer knowledge is required, including an understanding of Microsoft Windows and file management techniques. Students should also have a familiarization with basic scene measurement techniques.

Training Limited To:

This training is specifically designed for any law enforcement and fire professionals.
